## SUMMARY

I am a web developer who is passionate about building sharp and polished user interfaces. I have a deep interest in web development, as I am naturally curious. I have been trained to use tools such as HTML, CSS, JavaScript, Bootstrap, Bulma, Node.js, express.js, REACT, and HandleBars. I really love front-end development in particular because of how it engages both creativity and critical thinking, as I am someone who really enjoys being creative. I have recently graduated from the University of Minnesota's coding bootcamp. I have learned a lot through this experience and have become both a better developer and person because of it. Through this bootcamp, I have been trained as a full stack developer. I had the chance to show that I am a team player during this program as we had three assignments where we worked as a group. I am also very flexible and am very open to learning and trying new things. I heavily value the input of others as I think bringing in other perspectives from people that you trust create a better end product.

## TECHNICAL SKILLS

HTML, CSS, JavaScript, Python(basics), node.js, Bulma, Bootstrap, SASS, express.js, Handlebars, MySQL, MongoDB, React, GitHub, Heroku, and JQuery.

## PROJECTS

- **Henry Chat** <https://github.com/HRO0806/Henry-Chat>
- **Password Generator** <https://hro0806.github.io/Password-generator/>
- **OnTrack** <https://group2-ontrack.herokuapp.com/>

## WORK EXPERIENCE

### Team Member

Frattalone's Hardware

2019 – present

White Bear Lake, MN

- Practice excellent customer service by critically analyzing specific situations to determine the best route towards a resolution.
- Direct customers to the appropriate products for the particular customer need.
- Work effectively as a member of the team.
- Assist with customer loading of items purchased in the store as necessary.
- Perform sales counter functions such as order entry, special orders, and price lookup.

## EDUCATION

### Bootcamp Certificate (Full-Stack web development)

2021-2022

University of Minnesota

Minneapolis, MN

- A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

### Courses Towards General Education

2020-2021

Century Community College

White Bear Lake, MN

- Took some beginner coding courses online (mostly HTML and CSS), and was introduced to python and JavaScript.

### Courses Towards Linguistics

2019-2020

University of Northwestern

St. Paul, MN

- Studied linguistics for a year and decided to pursue other educational opportunities.
